Miners Voting Friday  
on Return to Work

Majority Last Evening Decide That  
Closed Ballot Be Taken to  
End Strike

At a meeting held this Thursday evening, in the opera house, it was decided by majority vote to take a ballot on Friday on the old agreement as the basis for returning to work.

The ballot will read: "Are you in favor of going back to work under the old agreement -- Yes or No."

## Communication

(The editor is not responsible for opinions expressed in letters to The Press, and reserves the right to reject any communication submitted. Publication must not be taken as an endorsement of opinions or policies. —H. T. H.)

May 3, 1932.

The Editor,  
"Coleman Journal"

In your issue of April 29th last, you carry an article in which you refer to the need for a community hall at Coleman, and point out the fact that the United Mine Workers of America who at present hold the title to the Miners' Hall and Opera House, should, in fairness, hand it over to the miners of Coleman.

The United Mine Workers of America have always maintained that the Miners' Hall and Opera House morally belongs to the miners of Coleman, and following their cessation from the United Mine Workers of America in 1925, the late George W. Lewis, who was then international representative, paid a visit to Coleman and endeavored to interview a committee who were purported to represent the miners of Coleman, with a view to making arrangements with them whereby the Opera House would be used for the purpose for which it was built.

Despite two different attempts by Mr. Lewis to get an interview with this committee, the answer he received was that the miners now had the matter in the courts and would get possession of the hall without having any "truck or trade" with the United Mine Workers of America.

There are some men today in District 18, U.M.W. of A. who were subscribers to the building fund and are, in fact, the real owners, who insist that the accredited representatives of the United Mine Workers of America see to it that the hall will always be available for the United Mine Workers of America should they desire it.

In 1926 Mr. Livett met a committee representing the miners of Coleman and advised them that as far as the title to the hall was concerned, he was duty bound to see that it was held in the name of the United Mine Workers of America but that he was prepared to hand over the keys providing they agreed to keep the taxes paid on the property and pay a nominal rental of One Dollar (\$1.00) per year. However, all the above was contingent on the men who had then taken the case to court, withdrawing the action they had commenced against the U.M.W. of A. The offer was refused and the attitude of the committee at that time was that they

## CLEAN-UP PAINT-UP

## Town Council Meeting

The council met on Tuesday evening, the following being present: Mayor Pattinson, Councillors L. Jones, F. Antrobus, J. Rushton, Frank Serak.

Application of Webster Bros for return of license fee of \$25.00 was granted. The football club was granted the use of the sports field for practices and games during the season.

The fire chief's report on hydrants stated there were two or three requiring attention.

The sale of town lots owned by the town was left to the mayor and secretary to arrange date and update prices for same.

The auditor's report covering the first period of this year was adopted, and accounts of approximately \$450 were passed for payment.

The reports of the sanitary inspector and the medical health officer were adopted.

The placing of tanks for the gasoline pumps of the new garage was left in the hands of the Fire and Light committee.

## Equal Terms to Unemployed

Some local union officials at Bellevue wired to Premier Brownlee asking what the government would do for the men who would be refused work if the miners returned to work. Stokulak, the district secretary, wrote the premier stating the union did not want the government to intervene. The government's reply was that the men laid off would receive the same treatment as other unemployed in the province.

Crows Nest Pass Football  
League

The schedule of the Crows Nest Pass football league has been completed, and opens on Saturday, May 21, with the first game in Coleman against Hillcrest.

Teams in the league are Coleman, Hillcrest, Coal Creek, Michel, Fernie and Corbin, thus ensuring good competition. The last scheduled game is dated July 31, following which the play-offs will be arranged.

Bob Hill is president of the local club and Walter Williams is secretary.

## Believe It or Not!

These "prices in Russia" were contained in a letter received by a Coleman resident, and dated April 21, 1932.

40 lbs of Spuds \$8.00  
40 lbs of Flour \$40.00 to \$50.00  
Approximately 3 lbs Bread \$7.50  
1 egg 15c  
Chicken \$3.50  
Cow \$200.00 to \$500.00  
Horse \$50.00 to \$200.00  
3 month Pig \$30.00  
180 lb Hog \$175.00  
High Shoes \$75.00 to \$100.00  
Low Shoes \$25.00 to \$30.00  
Suit of Clothes \$40.00 to \$75.00

Eggs at three cents a dozen probably constitutes a record low price for eggs. This was offered to farmers in Lundbreck and Cowley this week. Whether prices be high or low, the faithful hen keeps producing.

Mrs McKinnon of Kimberley spent the week-end visiting friends here.

Slavonic National Society  
Honored Departed Members

On Sunday the annual memorial services were carried out by the above society. Marching from the lodge hall in town, to the cemetery, flowers were placed on the graves of the following members: Matt Drazick, Mike Jurek, John Pietraszek, Frank Pivus, Joseph Gandy and Sam Strzich.

The society has about 90 members in Coleman, with T. Siska as president and J. Spivak as secretary. Walter Boblitt and Alec Kotch are the press committee. The organization has over 800 locals in Canada, the United States and Mexico, and is non-political.

## Boards of Trade Convention

Coleman Board of Trade has been invited to send a delegation to the 32nd annual convention of Associated Boards of Trade of Eastern British Columbia, to be held in Fernie on May 31 and June 1. Members of Coleman board who intend to go should notify W. L. Rippon, secretary, at the Bank of Commerce June 1, being on Wednesday, should enable many to attend, and a cordial invitation is extended.

Admission to the football and baseball club dance on May 23rd for high school students is 50c and 25c.

Announcement re Permanent  
Waving

Mr. and Mrs. J. Tufeland will be in Coleman on Friday May 20, and intending customers should make appointments early at Graham's beauty parlor. All work is first-class and guaranteed. Remember the date.

District Council of Boy  
Scouts Preparing For  
Annual Camp, Lee Lake

Will Include Groups From Michel-  
Natal to Pincher Creek. Pro-  
pose Third Week in July

The district council of the Crows Nest Pass Boy Scouts met at Blairmore on Monday evening and decided to hold the annual camp about the third week in July at Lee Lake. Troops from all Pass towns and Pincher Creek will attend, almost doubling the number that attended last year.

A committee appointed to select the camp site will report on Monday, May 20, at a special meeting. Mr. J. E. Gillis of Blairmore submitted a plan of a campaign to raise funds for Scouts, Girl Guides, Cubs and Brownies, to cover all the Pass towns, to be under control of the district council. After this plan has been submitted to local troops, a further report will be placed before the council.

Each troop was assessed \$5.00 for council expenses for the past year, and a monthly assessment will be made to cover current expenses.

District Commissioner J. W. Stephenson reported on the organization of a new troop at Osoyoos, assisted by Rev. A. G. McMorris of Michel and Rev. A. S. Partington. Eleven boys were enrolled and he hoped for a good troop.

The meeting was presided over by Mr. J. Westrup of Hillcrest, and Rev. A. S. Partington, secretary. Regular meetings will be held on the first Monday of each month, and special meetings at the call of the president. Those from Coleman attending the meeting were Mr. Partington, H. T. Halliwell and A. S. McLintock, scoutmaster.

THURSDAY, MAY 12, 1932**NOTES AND COMMENTS**

Russia purchases wheat in Vancouver, which is to the good for Canada. 'Tis not surprising when report states that flour costs the worker in Russia from \$40 to \$50 per 40 pounds, and one egg costs 15c, while farmers in the Lundbreck district are offered three cents a dozen. The five-year plan must have slipped a few eggs. Things generally are badly muddled, both in Russia and Canada, when such conditions prevail. The much-vaunted mathematical efficiency of State regulation of industry in Russia has yet to convince the world of its merits.

A writer in Maclean's Magazine, whose stories also appeared on the front page of the London Daily Express, went to Russia about three years ago. She states: "No one is happy or completely satisfied. Some regard the system of piecework, bonuses and being paid according to qualifications, as a return to the capitalist system."

Despite all kinds of plans and paternalism on the part of governments, the characteristics of human nature in the mass are much the same the world over, no matter which country may be selected. Several years ago the Dominion government furnished seed grain to farmers who were up against it. The agreement was that the cost be paid back when the farmers were able. A large number took it for granted they would never have to, consequently they never tried to pay it back. It is so with all people who are continually urging that the government should do this and that. They are the people, who left to their own resources, cannot do anything for themselves, except grouse from now till eve. There is much to commend in the proverb: "The Lord helps those who help themselves." But don't help yourself to your neighbor's goods. Produce your own!

Reds still control the strike situation, while those desiring to return to work lack aggressive leadership. Men are loath to break with their union, no matter how badly offered it may be. Union consciousness is a force which binds them together. But domination of an organization which has for its objective the "mobilizing and organizing of the Canadian workers for the final overthrow of capitalism and for the establishment of a revolutionary workers government" is as "red" as the name implies.

This week has been very quiet since the Communist agitators left the Pass. The trouble-makers have fled to cover for a short time, fearing arrest. There is but one method to follow, which the public opposed to red activities heartily concur in—and that is "treat 'em rough"—as they advocate to all who oppose them. People don't coax mad dogs with choice tid-bits. The "cooler" and deportation is the remedy for disturbers of law and order who come from other lands. Canada would be well rid of paid heelers who thrive on other's misfortunes.

The question has been asked—is picketing lawful? Some time ago men were stopped from going to work in a camp in British Columbia, by menacing conduct of pickets. An action was brought against those who accosted the men, and the judge ruled that a man was free to go to work if he so desired; stopping him was guilty of assault, and he handed out sentences accordingly. Last week men and cars were accosted on the highway, in defiance of the police. Many are asking, who rules—authority or the mob?

It shows that sterner measures are required to impress on immigrant workers that such an exhibition as seen last week cannot be repeated. The names of those arrested indicate they were of foreign birth. The King's highway—further blocked by a howling and fanatical mob, interpreting indulgence as weakness, tramping over the rights of law abiding people.

A visit to Pincher Creek is a pleasant change if even only

for an hour or two. It has its troubles too. You get away from strike talk in the Pass, and run into complaints of absurdly low prices for produce which discourages the farmer and robs him of enthusiasm to sow this year's crop. Yet, on one field were seen six seed drills each drawn by six horses. One thought, there is a farmer who believes that wheat will be hitting a higher mark by the fall than it is now. Everyone will wish him luck and hope that his guess will come true.

Moscow celebrates May Day with a parade of the Red Army, followed by 1,000,000 adult and minor Communists carrying red flags. Turkish Premier Ismet Pasha and his party, as guests of honor, are given a display of Soviet Russia's war strength. Russian orthodox Easter, falling on the same day, is almost ignored. Shops which exhibit the traditional gay eggs and cakes are complained of by the children, who are daily given anti-religious teaching. Instead of the familiar emblems reminding of Christianity's dearest promise, the children demand toy tractors and toy automobiles. How can Soviet Russia so confidently steep its future citizens in materialism, when any but the blind can see exactly what the worship of the material has brought to the world—most of its present woes?—The Christian Science Monitor.

One dollar purchased \$58.32 worth in a month, after being taken from its hiding place in the kitchen clock and put to work. How many thousands of times this repeated would stimulate employment.

# Visions Of Establishment Of An Iron Smelting Industry Is Seen For Ontario Province

Visions of the establishment some time in the future of a huge iron smelting industry in the district of James Bay were stimulated by the announcement that the government has withdrawn the unalienated portions of Belcher Islands, in Hudson Bay, from public exploitation pending a thorough investigation into the character and extent of the hematite deposits there.

Coupled with this, in the minds of those who foresee further extensive developments for Northern Ontario, was the fact that examinations of a most elaborate nature are at present being made on the suitability for all purposes of the lignite deposits in the Abitibi region.

Coal and iron being complementary, the one to the other in establishing the basis of all manufacturing industry, the discovery and development of the two in such close proximity as Belcher Islands are to Abitibi have encouraged the hope that Canada's independence of external sources for the nation's supply of iron ore may eventually become considerably more than a "pious wish."

The prospect of the ore being transported in barges from the islands of Hudson Bay to the ocean port which the Ontario government proposes to found at the debouchment of the Moose River is one which has captivated the imagination of those most closely connected with the operations.

Expanding the theme, the possibility was envisaged of such a development furnishing an additional outlet for the coal of both Nova Scotia and Alberta. In the former case the coal could be water-borne all the way from Sydney, N.S., up the coast of Labrador, through the well-charted Hudson Straits and down to James Bay. In the latter case, comparatively short haul from the Alberta collieries to Churchill would bring the western product to tidewater.

The government's examination of the Belcher Islands deposits will be conducted under the supervision of the Department of Mines.

## Farm Organization

Writer Maintains Operating Costs Can Be Reduced via Production Stimulus

The history of agriculture demonstrates that operating costs can be reduced, production per worker stimulated, standards of living raised and national wealth increased by the adoption of farm organization to improvements in equipment, was the conclusion reached by Andrew Stewart of Manitoba Agricultural College who won the Royal Bank of Canada economics fellowship competition for 1930-31.

The prize was worth \$1,000. Second place was given to "Recent developments in wholesale and retail distribution," by George D. Thomson, of University of Toronto, and third place to "A Study of Empire Trade," by G. M. Rountree, of McGill University. Mr. Stewart's prize-winning paper was called "The economy of machine production in agriculture."

## A Prolific Sow

Stanley Riter, of Neepawa, Man., owns a sow which has given birth to 49 live pigs in one year, the facts of which he submits in a letter to the Free Press. The litter numbered 18; on September 15, 1930, her litter was 12, and February 26, 1931, she gave birth to 19. The sow is part Hampshire and part Yorkshire, and is in splendid condition.

## Languages In Europe

Publications in Linguistic Office show 125 languages are used in Europe according to an Associated Press despatch of January 21, 1931, from Geneva.

The leaders are: German spoken by 81,000,000; Russian, 70,000,000; English, 47,000,000; Italian, 41,000,000, and French, 39,000,000.

"Churl! Do you know who I am?" "Don't you know yourself?"—Sognagisne-Strix, Stockholm.

W. N. U. 1036

## Direct Result Of Grading

London Advances Price Of Canadian Cheese Over New Zealand Product

No industry is favored with more instruction, inspection, guidance and encouragement from Government officials and self-appointed crusaders than is the enterprise we call dairying. But there is a good motive behind all this paternalism, and happily it is bearing fruit. From Dr. J. A. Ruddle, Dairy Commissioner for Canada, comes this terse statement: "According to the 'London Grocer' the average London quotation for Canadian cheese for the calendar year, 1930, exceeded the London quotation for New Zealand cheese by 3.08 cents per pound."

When we add 3 cents per pound to the cheese manufactured in Canada (for that is what it really means) we begin to appreciate what cheese grading, factory improvement, payment by test, and general packing mean to the dairymen of this country. And when we recall that at one time New Zealand cheese was threatening the prestige of the Canadian product on the British market we can, quite properly, give ourselves a pat on the back—Farmers' Advocate.

(By Annette)

## CAPELET GIVES SMART NEW EFFECT

Today's interesting home frock is developed in a cotton shantung print in the new flattering salmon-pink tones. The pretty shoulder capelet ending in an abrupt manner at the front, gives the effect of flared sleeves. An interesting feature is the pointed treatment given the bodice to narrow its breadth.

The shirt, slightly flared, has an inverted plait at the center-front which gives added width without detracting from its slim straight appearance.

This easily made dress, Style No. 198 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust.

Such a model could well be carried out in white flat washable crepe silk with vivid sailor blue bindings for resort.

Light, plique, striped tub silk, printed batiste, gingham, etc., are delightfully lovely fabrics to select. Price of Pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## Manitoba-Ontario Highway

Official Opening To Be Held Between Winnipeg and Kenora in September

Prominent men in political and business life of Manitoba and Ontario will participate in the ceremonies at the opening of the new link of the Trans-Canada highway between the two provinces.

The official opening will occur next September and will mark the joining of the road between Winnipeg and Kenora on the Lake of the Woods.

On behalf of Manitoba the following men will be included in the official party: His Honor James Duggan, Lieutenant-Governor; Premier John Bracken, Hon. W. R. Chubb, minister of public works; Hon. R. A. Hoey, minister of education; Lieut.-Col. Ralph H. Webb, mayor of Winnipeg; and Sanford Evans, M.L.A., representing the other provinces.

Patrons for Ontario attending will be: His Honor William D. Ross, Lieutenant-Governor; Premier G. S. Henry, Hon. C. McCrear, minister of mines; Hon. W. Finlayson, minister of mines and forests; and Dr. W. J. Gunn.

Branches in the two provinces of the Manitoba-Ontario-Trans-Canada Highway Association will foregather shortly to formulate an agreement on joint plans for the opening.

## Canadian Public Health Association

Annual Meeting To Be Held In Regina In June

Regina will be the scene of another Dominion-wide convention in June, when the Canadian Public Health Association holds its annual meeting here. The dates fixed are June 17, 18 and 19.

At the same time the Saskatchewan Health Officials' Association will hold its annual meeting in conjunction with the Dominion body.

Dr. F. C. Middleton, deputy minister of health for Saskatchewan, is president of the Canadian Public Health Association, while Hon. F. D. Munroe is honorary president. Dr. W. R. Coles, medical officer of health for Regina, is president of the Saskatchewan Health Officials Association.

## Interest In Horticulture

Societies In Saskatchewan Planning To Organize A Fair Circuit

Horticultural societies in Saskatchewan are planning to organize a fair circuit, reports W. E. Lake, Saskatchewan University extension lecturer. Springdale, Melville, Watrous, Yorkton and Canora societies have been in correspondence on this project and it is believed that the Midland and Prince Albert horticulturists may also join. A bulletin prepared by plant experts for the Horticultural Societies Association, listing the plants recommended for cultivation in Saskatchewan will be ready in a few days at the extension department of the University.

The Pacific Ocean covers 68,000,000 miles, the Atlantic 30,000,000. It would take all the sea water in the world 2,000,000 years to flow over Niagara.

## WINS RECORDED FOR BRITAIN

Kaye Don, noted British speed driver, recaptured the motorboat record by piloting his motorboat at 103.75 miles an hour.

## Keep Canada Beautiful

Everyone Can Share In Making Unusually Places Lovely

There is no need to make Canada beautiful. Nature did that for us with such a prodigious outpouring of fertility, such a majesty of mountains, such effectiveness of lake and river, that the worst efforts of man can only mar without breaking the scenic panorama that stretches from the grey rocks and green fields of the Atlantic coast to the riot of fragrant bloom where the warmer Pacific tresses its waves against towering, green-clad hills.

Canada is beautiful. Canada has a beauty that is marvelous in the eyes of countless visitors and newcomers. What a pity, then, that little bits of Canada should be made ugly by the careless indifference of men and women. Think of those who have made lovely bits of garden in strange places—round the oasis in the desert, on the top of an arid mountain and, most of all, in the sunless bits of earth hidden behind the houses of great cities.

Yet in Canada there are farm homes where we refuse the handful of seed, the hour or two of time, that would transform the homestead into a lovely garden. We let weeds riot where flowers would look so much nicer, and tramp on parched earth where grass might better make a springy carpet.

Sponsored by horticultural societies and the Horticultural Council, we are to have a "More Beautiful Canada Campaign" right across the Dominion in this year of 1931. A moving picture is made up of endless tiny pictures which blend into a continuous scene when run off on the machine. So a beautiful Canada can only be made by a succession of beauty spots from coast to coast. And success can be achieved only by each one doing his little bit to beautify the home or with shrubs and flowers efface or conceal the patches and corners that we have made ugly through carelessness and neglect—Farmers' Advocate.

Some animals, like the rabbit, have eyes on the side of their head because they are hunted, while others like the fox, have eyes in front since they are primarily hunters.

## LATEST PORTRAIT OF HER MAJESTY

## QUEEN MARY OF ENGLAND

Reproduced above is the latest portrait from London, England of her majesty Queen Mary of England, wearing the magnificent tiara and necklace of royal jewels. Her majesty celebrates her birthday on May 26.—Photograph by Hays Wriggleson, London, England.

# Says Manufacturers Should Take Care Of Raw Products From Western Canada Farms

## Guard Seal Migration

Sea Plans To Be Used In Connection With Government Vessel

A Royal Canadian Air Force flying boat, equipped with wireless, will assist H.M.C.S. Armistories in guarding thousands of fur seals on their annual migration to their breeding grounds in the Pribilof Islands, off Alaska.

The seal patrol will last for two months and the aircraft will make daily flights over the migrating seals to spot any attacks by hunters.

Under the sealing treaty of 1811 between Japan, Great Britain, United States and Russia, none but the Indians and other aborigines, armed with primitive weapons, are allowed to kill the seals on their way to the breeding grounds.

The U.S. coastguard patrols the sea here on its migration from southern waters and the task is taken up at the international border by the Canadian navy.

H.M.C.S. Armistories will act as tender for the Vickers Vedette flying boat.

The Pribilof seals of which there are more than 1,000,000, have more valuable pelts than any other seals. They make a "grand circle tour" of the Pacific each year, leaving their breeding grounds in the fall and migrating south along the coast of Japan and then north again in the spring.

The much-debated question of whether the seals contribute to the depletion of coast salmon may be settled by government experiments to be made in connection with the migration. Major J. A. Motherwell, chief inspector of fisheries for British Columbia, has arranged with W. E. DeBarn, Commissioner of Indian Affairs, to have the stomachs of some 50 seals examined.

## Shiver To Keep Warm

Doctor Says It Prevents A Very Good Substitute For Heat

Lacking a comfortable heated atmosphere or a fur coat, the thing to do when one is cold is to indulge in plenty of plain and fancy shivering, according to Dr. R. W. Swift, of the University of Rochester, who read a paper before the physiological section of the Federation of American Societies for experimental biology, in session in Montreal.

People shiver to keep warm—and it is a good substitute for heat. Dr. Swift said shivering is the body's method of manufacturing heat, he explained. Dr. Swift said he had experimented with volunteers who had been placed in a refrigerator for varying periods while electrical apparatus was attached to their bodies to register the efficacy of their shivering. Those who lent themselves most readily to shivering stood the cold best, he said.

## The Merchant's Best Clerk

Newspaper Sells More People Than Any Employee

The director of a well-known chain store describes the local newspaper as "our best clerk." He explains that he sees many people, gets more of their individual time, works longer hours, and tells its story with more accuracy than any other clerk they can employ. These papers are going into the homes of people, and are assured of their friendly attention. This is proved by the tremendous growth in importance of the press in the last few years, according to the director, who declares that today the local newspaper is the backbone of any constructive sales effort.

Newspaper Men To Meet At Regina

A despatch from Ottawa states that the Canadian Weekly Newspaper Association, embracing a membership representative of 800 newspapers throughout the Dominion, will meet in annual convention at Regina the first week of July. This decision was announced following a meeting of the association directors at the capital.

## Libby Lets Meow

Antique Dealer (to American): "Now, sir, if you'll step this way, I've a very fine specimen of a Queen Anne sideboard I would like to show you."

American: "Say that old queen of yours must have had a big dining room. This'll be the eighth sideboard of hers I've been shown this week."

Edmonton Assessment Figures—An increase of \$1 million dollars in property assessment in the city of Edmonton is announced by city assessor Thomas Walker, the present year's figure being \$68,704,000.

Co-operation by Eastern manufacturers with Western farmers is the means by which Western Canada will return to prosperity, Senator W. A. Buchanan, of Lethbridge, Alberta, told members of the Toronto Board of Trade at a recent gathering.

Wheat can only be partially displaced in the west by diversified farming, Senator Buchanan said, but a reduction in wheat acreage is possible through the introduction of more stock raising and the establishment of sugar beet factories, vegetable canneries, cheese factories, milk condensaries and an extension in the sheep raising industry. What was needed with this diversified agriculture was the industries to take care of the raw products.

"Here's where the co-operation of the eastern manufacturer was required," he said. Also the western sheep raisers should be encouraged in the production of more Canadian wool. While Canada could never compete with such wool industries as that of Australia, there was the basis of great wool producing areas in western Canada, the senator said.

Commenting on present conditions in the west, Senator Buchanan said the country was "groggery" in spots, but there was plenty of hope and confidence in evidence.

He belittled talk of secession, which, he said, the "country boys" in districts where agitators "got a chance to air their views." He claimed no one treated secession seriously.

What many farmers needed to do was to live on reserves built up through good years, rather than take too many chances on "next year." They should also seek to live off the farm rather than buy canned vegetables, meats and milk.

Production of only the superior class of all products should be urged upon the farmers, he said.

The coal industry was in the worst situation in its history. Unless some other utilization could be found for coal he could hold little hope for the industry in the future.

One industry which had not ceased during the depression, he said, was the production of oil. New fields were being found all the time and in the near future importation of such products into Canada should be eliminated.

## Cause Of Gastric Ulcer

Harvard University Professor Announces New Theory

Climaxing seventeen years of research work, Dr. Harvey Cushing, of Harvard University, foremost authority on the surgery of the central nervous system, has announced his theory regarding the cause of gastric ulcer, a problem that has baffled the medical world since 1784.

The ulcer is caused by disturbances in the diaphragm, that part of the brain which is the seat of the primitive emotions, and which governs most of the automatic actions of the body, he stated.

Dr. Cushing spoke in Convocation Hall before the faculty of medicine of the University of Toronto, which celebrated the 104th anniversary of the birth of Lord Lister, eminent surgeon.

His explanation of the cause of the ulcer is the first coherent and completely tenable answer to the problem that has yet been proposed, Toronto medical authorities who attended the lecture said.

The gastric ulcer is one of the most common maladies of the present day, and is said to be increasing. It is usually found in those who are overworked, under great emotional stress.

## Valley Of The Iceberg

The little town of Glacier, British Columbia, is the headquarters of Glacier National Park. Situated in the green valley of the Iceberg—what derives its unusual name from the Indian word meaning "swift water"—it has a magnificent setting of forest and peak. Predominant among the mountains is Sir Donald, which rises to a height of 10,896 feet.

Hubby: "Let me help you, dear, I will carry your umbrella."—Lustige Sachs, Leipzig.

## BRITISH LABOR PARTY SURVIVES CENSURE VOTE

London, England.—The government won in a canter. The great crisis—the Conservative motion of censure—ended in the defeat of the majority of 54 on a vote of 305 to 251. But it was a victory for the electric Rt. Hon. David Lloyd George, Liberal leader, rather than a victory for the government's unemployment programme, forcefully as Rt. Hon. Tom Johnston, Minister of Employment, presented it in the Commons recently.

The programme itself was received with some obvious disappointment by the Liberals. But the point taken up by Lloyd George—as he led the majority of his followers into the government lobby—was that the Conservative motion of censure was unjust and unfair until Mr. Johnston had been given a better chance. But Lloyd George's main point was what he called the danger of change in the vote.

The prime minister's strength, the Liberal leader caustically observed, "lies not in his front bench. It lies in the Conservative front benches." If the government were defeated, the Conservatives would be summoned to take office. Did that mean food taxes? Waving his arm down the long Conservative front bench, the "little Welshman" questioned: "Are they 'yes' men or 'no' men?"

The tattered garment of agreement between Rt. Hon. Stanley Baldwin, Conservative leader, and those who would tax food had been patched and torn and patched so many times it looked like the pants of a tramp. Nobody knew what the Conservative policy was.

"I don't think," he exclaimed, "it is fair to the country that we should transfer office to the Conservatives until we know definitely and clearly and unreservedly from Mr. Baldwin what he proposes."

From the Conservative benches came the taunt: "There's nothing less appetizing than a stale flic." "I heard that 40 years ago," responded the Liberal, "the Conservative motion of censure was that the government had failed to implement its election pledges with regard to unemployment."

Mr. Baldwin in opening the debate, quoted freely from Labor speeches made during the hazy election days when Labor men dreamed dreams and saw visions. He spoke of the phantoms ships of Rt. Hon. J. H. Thomas' Canadian trip, and declared the government had shown itself absolutely incapable.

Mr. Johnston spoke from a large pile of documents. Occasionally he stopped to read from a government speech. He held that the government had carried out the major pledges of its official programme and argued that Great Britain's unemployment problem had been intensified by decreased migration to the Dominions.

He submitted the following additional unemployment proposals:

1. Assistance to rural housing.
2. Encouragement for the extraction of oil from coal.
3. Extension of the time for Russian credits from 12 to 18 months.
4. Encouragement of tourist traffic.
5. A study of electrification for British railways.
6. Reforestation.

### May Meet in Arctic

Rendezvous Arranged Between Dr. Hugo Eckener and Sir Hubert Wilkins

Friedrichshafen, Germany.—A possible rendezvous in the polar regions between the Graf Zeppelin and Sir Hubert Wilkins' submarine "Nautilus" was forecast to the Associated Press by Dr. Hugo Eckener. "It is quite possible that a flight into the Arctic regions may eventuate this year," said the commander of the dirigible. "It all depends on whether we can finance the proposed expedition. If so, I expect to personally command the Graf. In New York Wilkins and I agreed to try to meet in the polar wastes."

Gandhi May Revolt Again  
Ahmedabad, India.—Apprehension was caused in government circles by the statement of friends of Mahatma Gandhi, that he was contemplating manhandling his non-violent crusaders again for a new assault on British rule in India. The nationalist leader was said to be dissatisfied with the present delay.

W. N. U. 1236

## Red Demonstration

Six Thousand Unemployed Battle With Police in Winnipeg

Winnipeg, Man.—Six thousand unemployed disrupted the usual order on city streets recently, when they clashed with officers of the law in one of the most serious demonstrations witnessed in the Manitoba capital in years.

Six demonstrators are in hospital as the result of the battle. More than a score of others are suffering from injuries, caused by the policemen's batons and flying missiles that broke store windows and damaged automobiles and street cars.

The struggle with the police occurred following a demonstration in front of the Legislative buildings at the front of the unemployed interviewed Premier John Bracken and placed their appeals before him. The 6,000 men attempted to parade home ward. Jeering of police elicited and several of the unemployed attempted to block street car and automobile traffic.

Suddenly, one demonstrator picked up a stone and hurled it at a policeman. It was the signal for battle.

Huge rocks, pieces of cement taken from a road under repair, few fast and thick. Policemen swung their batons on the bodies of the unruly as the missiles whizzed around them, crashing into store windows and automobiles. As the struggle waged, the demonstrators kept up a roar of boing.

Men, bleeding around the head, rushed from the scene. Many others continued the struggle until the officers arrested several. Then the turmoil ended and the struggling mass of humanity drifted home wards in groups, singing the "Red Anthem" and cheering the Soviet regime.

## Fast Telegraph Service

New Canadian National Wire Carries 9,600 Words Per Minute

Winnipeg, Man.—The world's greatest telegraph capacity for one pair of wires has been placed in service between Toronto and Winnipeg with the conclusion of experiments by the Canadian National Telegraphs and the installation of a 24-channel carrier current system between Toronto and Winnipeg.

Giving a theoretical maximum telegraphic speed of about 9,600 words per minute the system is designed to take care of transmission needs between east and west for a number of years to come. It makes use of a double modulation principle by working two types of carrier system, one superimposed on the other. One pair of wires between Toronto and Winnipeg is made, by the new system, to provide 24 trunk telegraph circuits.

## Accidents On Streets

### In Britain Increasing

Records Show Daily Average of Twenty Deaths During 1930

London, England.—Life on the streets of Great Britain is becoming increasingly dangerous. A daily average of more than 20 street deaths is recorded during 1930 by the home office.

Accidents caused by vehicles and horses during the year totalled 156, an increase of 4,992 over the previous year. There were 7,305 persons killed, 609 more than in 1929, and 177,895 injured, an increase of 6,978.

## Sailed For Europe

Major Herriage and Bride Depart On Wedding Trip

New York.—Major P. Herriage, new Canadian envoy to the United States, and his bride, the former Miss Mildred Bennett, sister of Premier R. B. Bennett, of Canada, departed for Europe after spending the first day of their wedding trip in New York. The minister-designate said he would take up his new duties at the Canadian legation in Washington about June 1.

To Reside in Montreal  
Montreal.—The Montreal Star says it is reliably informed that Col. William Avery Bishop, V.C., the Allies' greatest war ace, will take up business in Montreal, where he will be associated with an oil company. The colonel has lived abroad practically since the war ended, returning to Canada this year. The Star says he will work here and commute by aeroplane to his home in Muskoka.

Two Killed in Mine Blast  
Edmonton, Alberta.—Caught in a terrific gas explosion which rocked the entire workings, two men were killed and one seriously burned at the Ellerslie Collieries mine 12 miles south of here.

## Britain Buys Russian Wheat

Report Shows Imports Increase For First Three Months of Year

New York.—The New York Times publishes the following special cable from London:

"Evidence that Britain is buying more wheat from Russia, and about the same from English sources, is contained in the board of trade figures for March, which fail to show signs of the anxiously awaited revival. The amount paid to Russia for wheat was almost ten times as great in the first three months of this year as in the corresponding period of 1930. The first quarter's import of Russian wheat this year totalled 3,785,947 hundred-weight, valued at \$7,315,965, while in the first quarter last year Great Britain took only 321,912 hundredweight of Russian wheat, with a value of \$778,500.

## Tariff Advisory

### Board Promised

To Replace Old Board Which Was Abolished Last August

Ottawa, Ont.—Establishment by the government of a commission to replace the old tariff advisory board which was abolished by order-in-council last August would seem to assume more definite shape in the light of promised legislation, by the inclusion of \$120,000 in the estimates "to provide for salaries and expenses of the tariff board."

This is an amount similar to that voted last year for the maintenance of the now defunct body.

In the speech from the Throne the establishment by legislation of a board which would investigate matters relating to tariffs was promised.

## CLAIM IS MADE ALFONSO DID NOT ABDICATE

Madrid, Spain.—Members of the former monarchical government said that Alfonso did not sign an actual document of abdication.

They still, however, will not reveal precisely what he did sign. The idea was gaining ground in Madrid that Alfonso still claims the throne of Spain and may plan to return if future developments should seem to warrant it.

It was said that his exile was not likely to be embittered by poverty. If current reports are true he is one of the richest men in Europe, and foreseeing the possibility of loss of the throne, he had laid his plans accordingly. The story goes that he not only inherited an immense fortune from his mother, Queen Christina, but himself possessed financial genius which led him to make many shrewd investments. It was also said that he had withdrawn most of his funds from Spain and reinvested them in British and other foreign securities.

Although there was no authoritative announcement that King Alfonso was headed for Great Britain, the press supposition is that he will go to London, England, and probably reside with his family at Kensington Palace, where his wife's mother, Princess Beatrice, lives.

## WINS WRITING CONTEST

Raymond Knister of Port Dover, Ont., who has been awarded \$2,500 as first prize in a Dominion-wide novel writing contest conducted by an Ottawa publishing firm.

## Australia's War Payments

Amount of Payment of Australia To Britain To Be Reduced

London, England.—In response to a request from the Australian government to recognize the commonwealth's financial difficulties, His Majesty's government has agreed to reduce the payments of Australia to Great Britain under the war debt funding agreement of 1921. The payments amount to approximately \$26,250,000 yearly, and under the new agreement may be reduced by more than \$5,000,000 yearly during the next two financial years, commencing October 30 next. In addition, the period of repayment of the principal debt may also be extended two years.

This announcement was made in the House of Commons by Rt. Hon. J. H. Thomas, secretary of state. Australia's war debt under the agreement of 1921, was shown at \$464,200,000.

## Russian Coal

Statements Attributed To Canadian High Commissioner Are Questioned

Ottawa, Ont.—Statements attributed to Hon. G. Howard Ferguson, Canadian High Commissioner in Great Britain, were read to the House of Commons by Thomas R. L. Libert, member for New Westminster, who wanted to know if they were official and bore governmental approval.

The former Ontario premier was quoted as saying that Canada placed a ban on Russian imports of coal because it had been found that country was competing with Wales in the Dominion market.

Mr. Reid understood Canada had refused to trade with Russia for this country's own goods and not for the benefit of Wales or Great Britain. No answer came from the government benches and the incident closed.

New Lieutenant-Governor Of Alberta  
Edmonton, Alberta.—Swearing in of Mr. Justice W. L. Walsh as new Lieutenant-Governor of Alberta, will take place on May 3, according to reports current in Edmonton, Wednesday, April 15.

Mr. Justice Walsh will retire from his present post on the Appellate Division of the Supreme Court of Alberta before taking over his new office. He succeeds Lieutenant-Governor Dr. W. E. Egbert.

## CRACK ENGLISH TRAIN WRECKED

The photograph reproduced above shows a view taken from the air of the heap of smouldering matchwood and twisted steel, all that was left of the "Royal Scot" world's fastest train, after it had jumped the rails at seventy miles an hour en-route from Euston to Glasgow and Edinburgh recently. The train was headed by Leighton Burnard, Bedfordshire, England, and six persons were killed and more than eighty injured.

## Advocates Deflated Coin

Alberta Member Thinks Monetary Policy Of Canada Needs Change

Ottawa, Ont.—Business in Canada would improve materially if the Canadian dollar were allowed to depreciate to the level it reached at the close of the Great War, is the belief of George G. Coote, member of parliament for Macleod, Alberta.

Addressing an Ottawa service club, Mr. Coote expounded the theory that the monetary policy of the Dominion is in need of a change. "Deflation has been practiced in practically all gold countries, resulting," he said, "in a disastrous fall in the price level of commodities. All industries in Canada are suffering today and it would be just to reasonably inflate prices now as a corrective to excessive deflation of values."

Mr. Coote contended that a 30 per cent. depreciation of the dollar in the Argentine and Uruguay had resulted in those countries taking the Canadian wheat market in Great Britain.

## Would Deport Canadians

Reported Alien Drive In New England States Will Affect Many Quebecers

Montreal.—The Gazette publishes a despatch from Manchester, N.H., in part as follows:

"With 35 additional Federal officers at her command, Mrs. Anna C. M. Tillingham, commissioner of immigration in the New England district, which includes all of the New England states except Maine, is completing extensive plans for a wholesale roundup and deportation of many thousands of aliens illegally residing in this section.

"At least 30,000 French-Canadians will either be deported or returned to their native province of Quebec before the middle of next month, it is estimated. The drive is instituted to protect native labor.

"The immigration officials point out that the coming drive against aliens is not directed in any sense at any particular nationality or class."

## ASK STATEMENT OF POLICY ON UNEMPLOYMENT

Ottawa.—A demand from different parts of the House of Commons that the government state its policy on unemployment, and a declaration from the prime minister that such a statement would be forthcoming when estimates were discussed, featured a hectic session in parliament.

The practice in British parliament, Premier R. B. Bennett declared, was to pass the address in reply to the Speech from the Throne before the government stated its policies. He proposed to continue that practice. After the address was passed, the government would state its policies on several questions, particularly unemployment.

From East and West came complaints of government conditions warnings of possible riots, and demands for government action. In a spirited bustle with the prime minister, Rt. Hon. Mackenzie King, opposition leader, asked for a statement of the government's unemployment policy. What had the prime minister meant during the last election campaign when he said he would end unemployment?

"I do not propose at this moment to answer hon. gentlemen opposite other than to say this: I never expected to undo in a day, by remedial legislation, the wrongs that have been done to this country in the past 10 years," retorted the prime minister. He claimed no government had done more to implement its promises than had his.

J. S. Woodsworth, Labor member for Winnipeg North Centre, asked for a statement from the government on unemployment insurance. He did not regard it as a cure for unemployment—what was needed was work—but it would be of some assistance in alleviating conditions.

A pro-union speaker intervened to say that Mr. Woodsworth must express his own opinion, and the member for North Winnipeg Centre retorted he was expressing just that.

Finally, after further discussion, in this debate a surprise bill as introduced was put through all stages and passed by the House.

## BANKER STATES NO DESIRE TO RESTRICT CREDIT

Montreal.—"The banks desire to state that there has been no general withholding of credit and that they are today, as in the past, considering demands from their Western farmer clients and granting advances which appear justified, that is, advances which do not place the principal of loans in jeopardy, upon which there is a fair prospect of receiving interest and which may be repaid within a reasonable time," Beaudry Leman, president of the Canadian Bankers' Association and general manager of the Banque Canadienne Nationale, said in a formal statement issued recently.

Interest rates charged were based upon expenses incurred in the loan business, Mr. Leman said. His declaration was inspired by complaints made lately in and out of parliament that banks had closed down on farmer loans or were charging exorbitant interest rates where loans were authorized.

So far as loans were concerned, he pointed out that banks' functions did not permit them indiscriminately to become "silent partners" of the farmer, that the Bank Act limited loans operations and rightly so, for money loaned was not bank or public funds but the savings of depositors. Loans were available where interest and repayment in a reasonable time were apparent, Mr. Leman said. Interest rates were governed by the business done; in the West loans were mostly for small and numerous accounts, and the handling was costly. Lowering of rates would inevitably mean curtailment of farmer credit.

Mr. Leman deplored statements making it appear that the major portion of Western farmers were insolvent or hopelessly in debt. The banks could not let such statements go unchallenged. There were thousands of farmers in Western Canada who were depositors and not borrowers. Amongst those who borrowed but a small percentage had assumed obligations which placed them in a precarious position, he said. "Credit will not be attracted to the West by picturing conditions as bordering on disaster," he added.

"The banks would be glad to receive complaints of default cases where credit was held up. Only in this way could an error in judgment on the part of any local manager be corrected, Mr. Leman said.

"Instead of visiting complaints with reprisal as appears to be feared, the banks will always welcome communications which would enable them to rectify any such error or to explain fully the reasons for their action in not entertaining credit applications," he added.

As indicated by returns from the bank very strongly entrenched in the prairies, loans to farmers by this bank at the end of December, 1930, exceeded similar loans at the same date in 1929, by 16 per cent. Mr. Leman said. If a similar detailed examination were made in the branches of all other banks, the combined result would appear to differ materially from this figure, he added.

Seventy-six per cent. of the loans throughout the Prairie Provinces bore a rate of seven per cent. or under, he continued, while 20 per cent. of the loans bore from seven to eight per cent.

## Western Cattle Arrive At Eastern Market

First Shipment Made By Newly Organized Producers Reaches Montreal

Regina, Sask.—The first trainload of cattle shipped from the western provinces to eastern markets by the newly organized Council of Western Beef Producers arrived in Montreal, according to a wire received by the secretary, Jack Byers, former Dominion livestock promoter in Western Canada.

Mr. Byers has gone to Calgary to organize the organization's offices in Calgary, which will become headquarters.

Mr. Byers said that the council was organized to market cattle from Saskatchewan, Alberta and British Columbia with a minimum of overhead. Its purpose is to get as close to the producers as possible, he declared.

Gift For Canadian Author

Toronto, Ont.—Miss Marshall Saunders, Canadian author, was last night the recipient of a birthday book bearing contributions from scores of writers and artists, and messages from public men in support of its title club. She was joined to pay tribute to Miss Saunders on the occasion of her 70th birthday.

# Local Retailers You Have Rights!

You know that a manufacturer includes in the selling price of his product a percentage for press advertising—a percentage ranging in price from 3 to 5 per cent—sometimes, even more—when consumer-resistance is great or when the gross profit margin is very large. So, when a manufacturer spends \$50,000 a year on press advertising, it can be assumed that the total annual sales of his product amount to from \$1,000,000 to \$1,500,000.

Now, if you are stocking a nationally-advertised product—advertised in big-city dailies and in nationally-circulated magazines, you have a right to see this product also being locally advertised—in this newspaper. Your total annual sales of the maker's product, joined to those of its other local distributors (if there are others), entitle you to demand that the product be locally advertised in this newspaper.

If the maker or his representative talks to you about the advertising being done for the product in big-city dailies and in national magazines, tell him that upwards of 90 per cent of the families in your sales territory do not subscribe to a big-city daily or to a national magazine; and that, therefore, he is putting on YOUR shoulders the burden of creating and maintaining sales.

Clearly, it is not right that you should be required to promote the sale of a product in the territory served by this newspaper, without receiving from the manufacturer the same kind and degree

of sales assistance which he is giving retailers resident in cities where he is spending a lot of money on local advertising.

Quite too often manufacturers don't want to advertise in local weekly newspaper, saying that it costs too much. They forget, however, that their sales in towns served by weekly newspapers provide an advertising fund which should be spent locally. Why should the contributions from local sales to the makers' advertising fund be spent outside the local sales territory?

You have your business to build up, and to the extent that you help manufacturers to obtain and retain sales in this territory, to that extent you should receive local advertising assistance.

You've got a first-class case to put before manufacturers who want you to stock and push the sales of their product, then why not present it, either direct, or through the maker's representative when he calls.

**N. B.—Cut out this advertisement, and show it to the representative of firms whose products you are asked to stock and push.**

## Forest Destruction in Alberta Serious

Considered from the standpoint of destruction of forest resources, the fire season of 1931, reports the Alberta Department of Lands and Mines, was probably the most disastrous on record. Weather conditions prevailing during the winter of 1930-31 were such that fires started readily and burnt into the ground, thus providing a start for destructive fires in the spring. On the forests of the east slope of the Rocky Mountains it was necessary to fight fires on several occasions during the winter.

As a result of winter conditions and of the weather and ground conditions in the spring whereby fires spread rapidly, fires set for the purpose of clearing land and fires from other causes, assumed dangerous proportions and resulted in an enormous loss of forest resources and of private property. In addition the productivity of the soil was greatly damaged.

An examination of fire causes, state officials in charge of forest preservation, leaves no doubt as to the responsibility of individuals and indicates that little or no thought was given to the results. In many instances the danger to life and to the destruction of public and private property was entirely overlooked. Improvements on neighboring lands were destroyed with no thought of the importance of individual welfare in the success of the community.

In order to clear comparatively small areas, fires were indiscriminately set which destroyed large areas of important forest cover, which areas in a great many instances would at a later date contribute in no small way to the welfare of the individual and the community.

Settlers' fires dealt with by the forest reserve numbered 136, being 21.86 per cent of the total fires dealt with. The statement of the department concludes:

"Campers, which includes all forest travellers, contributed to the destruction in no small way. Carelessness, laziness and ignorance no doubt explains why 147 fires are known to have originated with campers. It is difficult to understand why people who go to the forest for recreation or who obtain their livelihood from the forest, should be guilty of such carelessness. In the provinces of Alberta are found conditions more favorable to outdoor recreation than in many countries. There is an abundance of game birds, fish and big game. These, however, cannot exist if forest destruction continues at the rate of 1931."

Coleman baseball team opened the season with a game at Corbin, the latter winning by a score of 13 to 8. Atkinson and Yagoe pitched for Coleman, Richards catcher; Falkner and Solenski pitched for Corbin.

## Communication

(Continued From Page One)

would see the thing through the court.

The executive board then instructed the district's solicitor, Mr. H. O. Hurd, K.C., of Lethbridge, to defend the action and at a later date the solicitor acting for the miners withdrew the case from the court.

During the interval no requests have been made to the United Mine Workers of America for the taking over of the hall, and during the last three years three different offers for the purchase of the hall have been received, but the officers felt that they are holding it in trust for loyal members of the U.M.W. of A. and some day it will be used by that organization in the furtherance of the interests of the mine workers.

The position of the United Mine

Workers of America today is the same as it was in 1926. It is willing to see the opera house used by the miners for the miners' cause, and will be prepared at any time to meet a committee representing the miners (by that we do not mean a committee representing a dual organization) and we are confident that an amicable arrangement could be worked out as suggested in the columns of your paper, as in other mining communities throughout the Province of Alberta where groups did not take the United Mine Workers into court to decide ownership, and the halls built under the same conditions as the hall at Coleman, are being used with out any interference from the United Mine Workers of America. Thanking you for the space,

I am,  
Yours very truly,  
A. J. Morrison,  
Secretary-Treasurer,  
District 18, U.M.W. of A.

## Local News

Mr. and Mrs. Wilfrid Dutil were visitors to Calgary this week.

The Journal's serial story will be resumed in the next issue.

"Union Depot," with Douglas Fairbanks, jr., is the title of the week end picture at the Palace.

The Paint-up and Clean-up Campaign will make a healthier and cleaner town.

Enter the \$3,000 contest. See Goodyear advt. of Coleman Garage Ltd., and Sam's Service Station.

Corbin baseball team played a return game here on Wednesday evening, resulting in a tied score of 7-7.

Everett Price and Fred Guerard motored to Calgary on Sunday, leaving Coleman at 1 a.m. and arriving home again at midnight.

Services at St. Alban's on Sunday (Whit-Sunday) will be holy communion at 8 a.m.; Sunday school at 2:30 p.m.; evensong and address at 7 p.m.

J. Moores and Edgar Reid were recent visitors at Creston, B.C., and state everything is "looking lovely" in that district, growth of fruit trees and shrubs being well advanced.

Mr. and Mrs. Jas. M. Allan attended a meeting of retailers held on Wednesday in Lethbridge. Quite a number from Pasm towns attended, including Geo. Cruickshank, M.L.A., of Hillcrest.

Mr. and Mrs. George Pattinson are spending a day or two in Calgary, where Mr. Pattinson is making a business trip in connection with new purchases for his hardware store.

George Jenkins and Mae Bell were the stars in the tennis tournament held last week by the Coleman club. They were the final winners, and played many good games.

It is reported that two zealous Communist comrades who were working on the highway took two days off to help the strike pickets. Returning to the road work, they found two other men in their places. There was no fooling around with the boss of that job.

Mr. Melville Anderson, of Anderson & McLean, sight specialists of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, May 31. 20 years experience and regular visits assure you of satisfaction in all optical work.

Jack Loughrie, formerly of Coleman, but latterly of Butte, Montana, is visiting many old friends and renewing acquaintances this week. It is eight years since he left here, and he was extended a warm welcome by his old cronies. He is staying with his brother-in-law, P. Sharp.

Mrs. T. Flynn and Mrs. Frank G. Creagan were joint hostesses at a shower held at Mrs. Flynn's home, for Mrs. George LeRoy (nee Miss Margaret Halliwell). The rooms were decorated with cut flowers and the gifts were brought in on a decorated doll carriage by little Sheila Creagan.

The following were remanded by Magistrate Gresham, at Blairmore court house last Friday, to appear for further hearing on Friday, May 13, for taking part in the strikers' disturbances at Bellevue on May 4 and 5: Gaston Bazille, formerly of Blairmore; Mrs. Polaki, Mrs. Holpki, of Coleman; Mrs. Stella Mowitch, Mrs. J. Fantim, Mrs. Lukas, of Bellevue; Mrs. Aescheliez, Hillcrest; Alec. Radzko, Bellevue; Nick Ukiervich, Blairmore.

W. Cousins, sr. has organized a junior baseball team for West Coleman, and received a fair share of support from the business men he called on. The club expects to have an enjoyable season, and a series of keenly contested games with other clubs. Mr. Cousins desires to thank those who contributed, their help being appreciated by the boys.

Coleman Girl Guides were out in uniform on Monday afternoon, and held their weekly meeting on the flat piece of land, south of the river, overlooking the town. Mrs. R. P. Borden is in charge, and Mrs. A. G. Bowling is lieutenant. The troop has made splendid progress since its organization a few months ago.

## Lake Pavilion Opening

The grand opening dance will be held on Saturday, May 21, with the Arcadians six piece orchestra. Dancing from 9 to 12 p.m.

## League Game Crows Nest Pass

Coleman football club will play against Hillcrest here on Saturday, May 21, at 6 p.m. This should be a keen game and well worth turning out to see. The admission is 25c. The referee will be Peter Smith.

## Trout Require Even Temperature

Investigations in Quebec have shown that trout lakes and streams must have a low temperature to successfully breed fish and that trout waters in a deforested area are soon barren of sport. The cool waters that come from tree-covered lands are a prime essential of successful fishing.

## Cole's Theatre, Bellevue

Bravely labelled as simon pure nonsense, "Palm Days," the new Eddie Cantor song-and-gag festival comes as Samuel Goldwyn's successor to their inaugural "Woopee."

It is a gay, comic strip kind of a yarn, in which Cantor is seen as the unwilling assistant to a gang of fake spiritualists, who hire him out as an efficiency expert to wreck a modernist bakery that might have come out of an Arabian nights fantasy. For no bakery in this world could ever have such a collection of overdressed and underdressed beauties as disport themselves in "Palm Days."

**IN MEMORIAM**  
IN LOVING MEMORY OF JOSEPH GANDY, killed in International mine May 22, 1931. "Thy voice is now silent, thy heart is now cold. Where thy smile and thy welcome dwelt, we miss thee and mourn thee in silence unseen, And dwell on the memory of joys that have been. —Affectionately remembered by his loving wife and son Peter."

## ANNOUNCEMENTS

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, on Wednesday afternoon, May 18th.

Anyone wishing to consult him with regard to eye, ear, nose or throat, please make appointment with Dr. Stewart.
